In particular, the Plan aims to pursue the following objectives:

- a) favouring loyalty of key managers of OVS and the Subsidiaries, by incentivising their permanence with the Company and the Subsidiaries;

The Plan is developed in a time frame considered suitable for achieving the objectives of incentivizing and loyalty building pursued by it.

The adoption of remuneration plans based on shares is also in line with the recommendations of Article 6 of the Self-Regulatory Code, that recognises that such plans represents a suitable tool to ensure the alignment of the interests of the executive directors and managers with strategic responsibilities of listed companies with those of shareholders, thus allowing to pursue the main scope of creating value in a medium-long period.

2.2 Key variables, also in the form of performance indicators considered for the purposes of the attribution of the plans based on financial instruments

The Plan envisages the achievement of some Performance Objectives to which the right of each Beneficiary to mature the Potentially Exercisable Options (as defined below).

Such Performance Objectives are connected to the *EBITDA* determined by the Board of Directors for each reference financial year and will represent the parameter to identify the percentage of the Potentially Exercisable Options by the Beneficiaries.

2.2.1 Additional information

Every twelve months from the Date of Attribution, Options will mature that represent until the 20% (twenty per cent) of the overall amount of the Options attributed to each Beneficiary (the “**Potentially Exercisable Options**”), according to the following calendar:

Date	% of the Potentially Exercisable Options
12 months from the Date of Attribution	20%
24 months from the Date of Attribution	20%
36 months from the Date of Attribution	20%

48 months from the Date of Attribution	20%
60 months from the Date of Attribution	20%

The number of Potentially Exercisable Options in relation to each Cycle of Attribution will be calculated on the basis of the following table.

Performance Objectives	
EBITDA of the previous reference period (% achieved)	% of Potentially Exercisable Options that mature
≥95%	20% rounded down to the lowest entire unit
90% to 94%	10% rounded down to the lowest entire unit

The number of Options to allocate to each Beneficiary is defined by evaluating the strategic importance of each Beneficiary in connection with the creation of new value, considering the professional competence and potentialities, the ability to contribute to the development of the business activity, taking into account experience and competences covered from an organisational perspective, as well as to relevant loyalty needs.

In identifying the Beneficiaries, the Board of Directors will recur also to the support of the Human Resources and Organisation Department.

Board of Directors, shall not transfer, for at least 12 months from the exercise date, a number of Shares equal to 20% of the subscribed (or purchased) Shares by virtue of the Exercise of the Options, net of Shares transferable for the payment of (a) Exercise Price of Options and (b) taxes, providential and welfare charges, if due, connected to the Option Exercise.

It is further understood that Beneficiaries that are Executive Directors, pursuant to the recommendations of the Self-Regulatory Code shall not transfer, even after the expiration of the lock-up period above, until the end of their office a number of Shares at least equal to 20% of the Shares concerned by the undertaking of lock-up pursuant to this article.

Such Shares shall be locked-up - and therefore they shall not be transferred, exchanged, loaned, or be subject to other acts *inter vivos* – until the expiration of the term as set forth above, except in case of written authorization by the Board of Directors, having heard the opinion of the Remuneration Committee.

Further non-transfer obligations concerning the Shares attributed upon the Exercise of the Options are not provided.

4.7 Description of any conditions subsequent in relation to attribution of the plans in the case that the addressees engage in hedging operations that make it possible to neutralize any prohibitions of sale of the assigned financial instruments, also in the form of options, or of the financial instruments resulting from the exercise of such options

Not applicable, as no subsequent conditions are foreseen in the event that the Beneficiary engages in hedging operations.

4.8 Description of effects determined by termination of the employment relationship

In the event of termination of the Relationship provisions of this paragraph 4.8 shall apply, save for otherwise determined by the Board of Directors in a more favourable sense for the Beneficiaries and without prejudice for the ability for the Board of Directors, upon prior consultation with the Remuneration Committee, to reach agreements having a different content with each of the Beneficiary.

- For Good Leaver it is to be intended any event where the Relationship is terminated as a consequence of:
 - (a) death or permanent invalidity of the Beneficiary,
 - (b) redundancy, revocation or termination of the employment relationship and/or of the office of the Beneficiary from OVS and/or the Subsidiaries for reasons other than (A) just cause, or (B) any other reason which renders the redundancy of the Beneficiary justified (provided that such redundancy and/or revocation and/or termination is not connected to organisational and/or production reasons);
 - (c) resignations of the Beneficiary due to the need to take care of its wife and/or sons (or of one of them) if they become seriously ill, provided that the Company and/or the Subsidiaries are provided with a medical certificate attesting the type of illness, if so required by the Company and/or the Subsidiaries; or
 - (d) resignations of the Beneficiary in case of serious breach by OVS and/or the Subsidiaries of employment terms and conditions of the Beneficiary so to prevent the Beneficiary from continuing to work for OVS and/or the Subsidiaries, neither temporarily, it being understood that OVS and/or the Subsidiaries will have the right to demand for proof of such breach.
- For Bad Leaver it is to be intended any event where the Relationship is terminated as a consequence of:
 - (i) redundancy and/or revocation and/or termination of the employment of the Beneficiary from OVS and/or the Subsidiaries for just cause or for any other cause making the redundancy justified (provided that such redundancy is not connected to organisational and/or production reasons); or
 - (ii) voluntary resignations of the Beneficiary from OVS and/or the Subsidiaries, with the exception of resignations under letters (c) and (d) of the paragraph above.

In the event of termination of the Relationship referable to a Good Leaver event, whose date of termination falls within the Exercise Period, the Beneficiary (or his heirs or legitimate successors) will keep the right to exercise the Exercisable Options still owned at the date of termination of the Relationship that may be exercised within six months from the date of termination of the Relationship or within the Expiry Date, if previous.

The Beneficiary will definitively lose the right to exercise (a) the Options and the Exercisable Options still not exercised, in case of termination of the Relationship referable to a Bad Leaver event, and (b) the Potentially Exercisable Options, in case of termination of the Relationship referable to a Good Leaver event, that will return in the full availability of the Company. The Board of Directors, acting along with the Remuneration Committee, may destine them in favour of further Beneficiaries identified by the Board of Directors in the context of the Plan, pursuant to the terms and conditions

of the Regulation (so called “recoverability clause”).

It is understood that (i) the natural expiration of the office of director followed by immediate renewal without any interruption will not be deemed a termination of the Relationship; and (ii) the right of the Beneficiaries to exercise the Exercisable Options will be suspended starting from the moment in which a possible disciplinary letter is sent and until conclusion of the disciplinary proceeding.

Finally, it is understood that in case of transfer of the Relationship from the Company to another company of the OVS Group and/or in the event of termination of the Relationship and simultaneous commencement of a new Relationship within the OVS Group, the Beneficiary shall keep, *mutatis mutandis*, every right granted to him by the Regulation.

The Board of Directors, upon prior consultation with the Remuneration Committee, has also the right to allow to the Beneficiaries the Exercise of the Options, in whole or in part, in case of consensual termination of the Relationship agreed among the parties.

If, within the Expiry Sate, a “change of control” occurs, the Beneficiary is granted the ability to carry on its participation to the Plan at the modalities, terms and conditions of the Regulation, save for possible different contractual proposals advanced by the subject that will acquire the control, or to exercise the entirety of the Options attributed, even though the relevant Vesting Period is not expired and independently from the reaching of the Performance Objectives and/or provided the periods under paragraph 4.2 above have elapsed.

A “change of control” will be deemed to occur if a single subject or several subjects acting together (other than Gruppo Coin S.p.A. and/or the funds advised and managed by the BC European Capital Funds, CIE Management II Limited and/or any other entity controlled by the same), either directly or indirectly, acquires a shareholding in the share capital of OVS as a consequence of which:

- (i) an obligation to promote a mandatory public offer of purchase concerning the ordinary shares of the issuer pursuant to the TUF arises on the account of such subject; or
- (ii) such subject (or subjects) appoints or dismisses all the Issuer’s directors or the majority of the same.

4.9 Indication of other possible causes of cancellation of the plans

Except as indicated in other paragraphs of this Information Document, no other causes of cancellation of the Plan exist.

4.10 Reasons relating to any provision for a “redemption”, on the part of the company, of the financial instruments that are the subject of the plans, provided for in accordance with Articles 2357 et seq. of the Civil Code; beneficiaries of the redemption, indicating if it is destined only for particular categories of employees; effects of termination of the employment relationship on said redemption

The Plan does not provide for redemption clauses on the part of the Company.

The Plan provides for revocation and restitution clauses.

If the Board of Directors, upon prior consultation with the Remuneration Committee, finds - within 3 years from the initial date of exercise - that the Performance Objectives have been determined on the basis of uncorrected data or should have been found on the account of the Beneficiary, with a judgment at first instance, fraudulent or severally faulted behaviours to the detriment of the Company, as a consequence of which relevant financial damages occurred to the Company or without which the Performance Objectives would have not been reached, the Board of Directors, upon prior consultation with the Remuneration Committee, shall reserve to obtain from the Beneficiary who is author of one of the acts and/or facts above, the revocation of the exercisable Options or the restitution of shares held by the Beneficiary, minus a number of shares having a value equal to the exercise price of the Options and the taxes, providential and welfare charges connected to the Options exercise effectively paid, or the refund of the transfer's value (minus a number of shares value equal to exercise price of the Options and the taxes, providential and welfare charges connected to the Option exercise, possibly also by balancing such value with the wages and / or indemnities granted to the Beneficiary), should the shares held by the Beneficiary already been transferred.

4.11 Any loans or other facilitations which it is intended to grant for purchase of the shares in accordance with Article 2358 of the Civil Code

Not applicable, as the Plan provides for free allocation of Options.

4.12 Indication of evaluations on the expected expense for the company at the date of relative allocation, as determinable on the basis of terms and conditions already defined, for overall amount and in relation to each instrument of the plan

No particular evaluations.

4.13 Indication of any dilution effects on the capital determined by the remuneration plans

The full subscription of the increase in the share capital for the Plan as a result of the exercise of all the Options and assuming that further capital increases are not made would determine a dilution of 2.25% of the current share capital for the Company's shareholders.

4.14 Any limit to the exercise of voting rights and to the assignation of financial rights

No limits are provided in respect of the exercise of voting rights and of financial rights relating to the Shares accruing from the exercise of the Options.

4.15 Information concerning the attribution of shares not traded within regulated markets

Not applicable.

4.16 Number of financial instruments underlying each Option

Each Option gives the right to subscribe and purchase one Share.

4.17 Expiry of the options

The Expiry Date of the Options is set at June 8, 2025, by which date all the Options matured and not expired shall be peremptorily exercised.

4.18 Manner (American/European), timing (e.g., periods valid for exercise) and exercise clauses (e.g., knock-in and knock-out clauses).

The Exercisable Options, once the relevant Vesting Period according to paragraph 4.2 above has matured, will have an "American" way of exercise.

For the Exercise Period of the Options, see paragraph 4.2 above.

4.19 Price for the exercise of the option or manners and criteria for its determination, with particular regard: a) to the formula for calculating the exercise price in relation to a certain market price (so-called fair market value) (for example: exercise price equal to 90%, 100% or 110% of the market price), and b) to the ways of determining the market price taken as reference for the determination of the exercise price (for example: last price of the day prior to the allocation, average of the day, average of the last 30 days, etc.)

With regard to the First Cycle of Attribution, the price of exercise of the Shares is fixed at Euro 4.88 per Share. Such price of exercise is determined in a measure equal to the Offer Price, increased of 19.1%.

With regard to each Cycle of Attribution following the First Cycle of Attribution, the Exercise Price of Shares will be determined by the Board of Directors of the Company, after having heard the Remuneration Committee, for an amount at least equal to the arithmetical average of the official price of the Shares on the MTA during the thirty-day period preceding the Date of Attribution of the Options to the Beneficiaries.

4.20 Reasons for the difference between the exercise price and the market price as determined pursuant to point 4.21 (fair market value)

With regard to the First Cycle of Attribution, the definition of the price has been made by the Board of Directors,

considering that the price of placement of the shares in the context of the global offering reserved to institutional investors and to the general public, as increased of 19.1%, may properly reflect the value of the shares, having considered the requisites and the objectives of the Plan, and having also considered that in the definition of the price the Board of Directors has not deemed as indicative the listing values of the shares registered in the limited period of listing on the MTA, on which the same are traded starting from March 2, 2015, since such values are affected by volatility and instability factors typically connected also to the recent listing.

With regard to each Cycle of Attribution following the First Cycle of Attribution, the price of exercise will correspond to the market price determined according to paragraph 4.19 above. In particular, the criterion proposed by the Board of Directors, other than permitting to consider a period of time which is closest to the moment in which the price of exercise will be determined and representing properly the market value of the shares, corresponds to the market practice of listed companies in relation to the criterion adopted to establish the price of exercise of the shares to service the shares remuneration plans.

4.21 Criteria on whose basis different exercise prices among various addressee parties or various categories of parties are foreseen

Not applicable, as the Plan foresees the same Exercise Price for all Beneficiaries, on the same Cycle of Attribution.

4.22 In the event that the financial instruments underlying the Options are not traded on regulated markets, indication of the value attributable to the underlying instruments or the criteria for determining this value

Not applicable, as the Shares underlying the Options are traded on the Electronic Share Market.

4.23 Criteria for the adjustments made necessary as a result of extraordinary operations on the capital and of other operations that involve variation of the number of underlying instruments (capital increases, extraordinary dividends, split-down and splitting of the underlying shares, merger and demerger, conversion operations into other categories of shares, etc.)

The maximum number of Shares underlying the Options will always be solely that indicated in the Attribution Letter, save for a different decision of the Board of Directors.

In case of extraordinary operations regarding OVS — including but not limited to mergers and demergers of OVS; split down and splitting of the Shares; operations of free increase of the share capital of OVS; operations of increasing the share capital of OVS on a paid basis with the issue of Shares, of special categories of shares, of shares combined with warrants, convertible bonds and convertible bonds with warrants; distribution of extraordinary dividends on the Shares with the withdrawal of OVS reserves; operations of reducing OVS's share capital; transfers and contributions of company divisions – as well as legislative or regulatory modifications or of other events likely to influence the Performance Objectives, the Options, the Shares or the Plan, the Board of Directors, upon prior consultation with the Remuneration Committee, will have the right to make to the Regulation and related documents, discretionally, unquestionably and with no need for further approvals by the shareholders of the Company and/or the Beneficiaries, all the amendments and additions deemed necessary and/or advisable to maintain the essential substantial and financial contents of the Plan as unchanged as possible, in keeping with the objectives and aims it pursues and the financial rights recognised by the same.

Such amendments and additions may have as object, amongst others, the number and the type of Shares which are then object of the Options, the exercise price, the Performance Objectives, the Vesting Period and the Exercise Period.

The Board of Directors may also suspend exercise of the Options for a maximum period of three months in order to be able to take its decisions in regard to the above.

Amendments envisaged by this paragraph, final and binding, will be promptly communicated in writing to the Beneficiaries according to the modalities set forth in the Regulation.

In the event of delisting of OVS Shares from the MTA, the Beneficiaries will be entitled to exercise the entirety of the Options assigned, although the relevant Vesting Period has not yet expired and independently from the achievement of the Performance Objectives and upon the elapse of the periods under paragraph 4.2 above.

The exercise of such Options may occur within six months from the moment in which each Beneficiary will have become aware of the delisting or within the completion of the delisting procedure, if precedent.

The Plan was approved by Shareholders' Meeting to be held on May 26, 2015 and the Board of Directors on 8 June 2015 and on 18 April 2017 gave execution to the Plan.
